

# Clean Air is Life

LET US HELP PROTECT YOURS

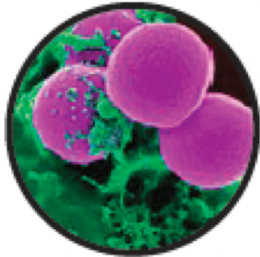

## Hybrid

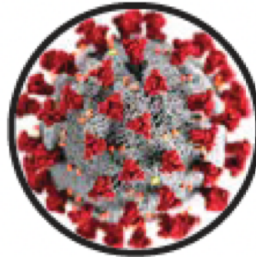

In-Duct Whole Home  
Air Purification System

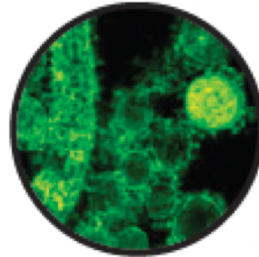

# Benefits

**BACTERIA**

**VIRUSES\***

**MOLD**

**PET ODORS**

**TOBACCO**

**FOOD SMELLS**

*\* Including MS2 (a widely accepted test surrogate for SARS-CoV-2; the virus that causes Covid-19)*

## ➤ Proven to reduce 99.9% of airborne microbials

- ✓ SARS-CoV-2 (virus that causes Covid-19)
- ✓ Influenza
- ✓ Streptococcus
- ✓ And Others

## ➤ Reduces VOC's

## ➤ Reduces Odors

# Benefits

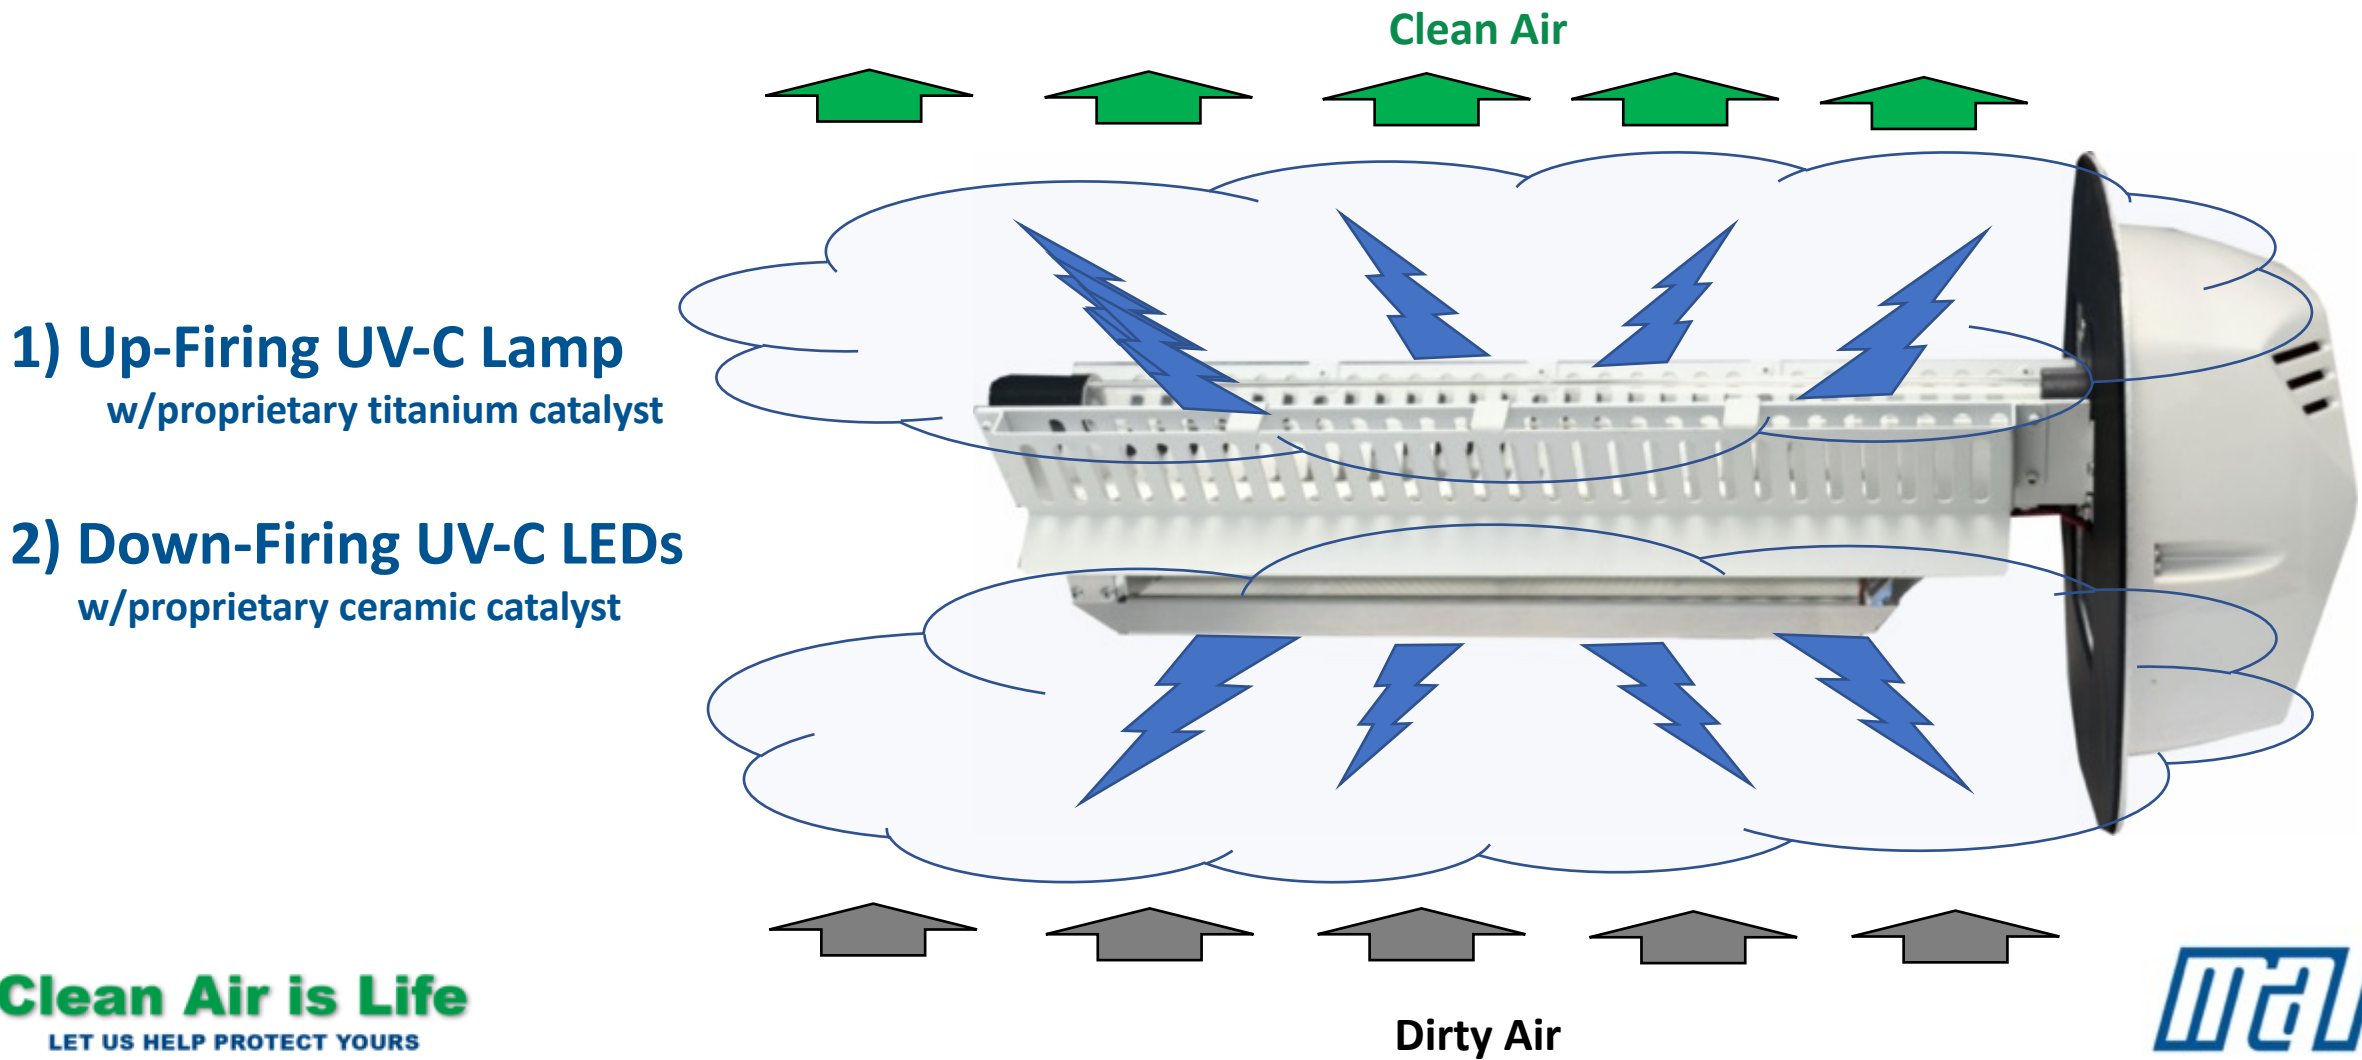

- **Does not produce ozone**
- **Does not produce an odor**
- **Does not require maintenance\***
- **7-year limited warranty**
  - ✓ **5-year base extendable to 7 years when product is registered**
  - ✓ **UV-C lamp carries 3-year warranty**

\* UV-C lamp should be changed every 3 years to maintain efficacy. Periodic cleaning of the catalyst may be required if unit is used in a smoky environment.

# Hybrid - Dual Element PCO Technology by RGF ENVIRONMENTAL GROUP, INC.

Produces TWO fields of powerful oxidizing elements

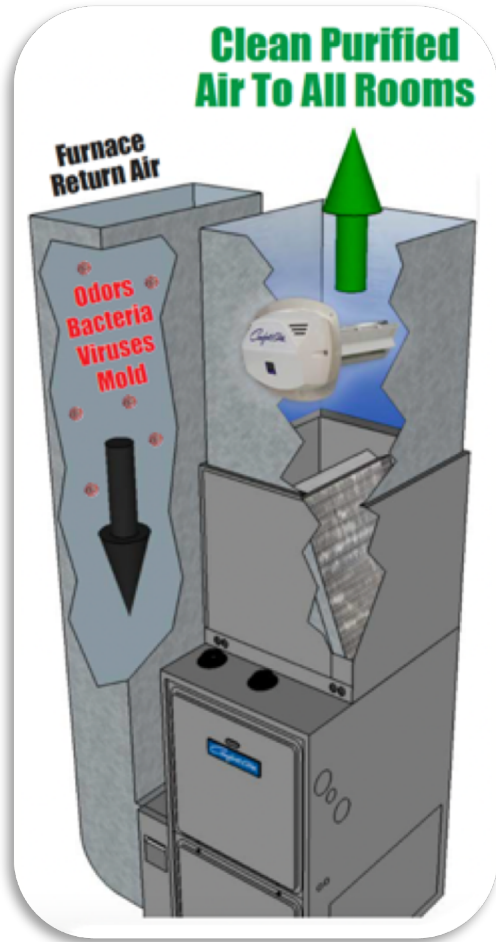

1) Up-Firing UV-C Lamp  
w/proprietary titanium catalyst

2) Down-Firing UV-C LEDs  
w/proprietary ceramic catalyst

# Specifications

- **Recommended for up to 3,000 CFM**
- **24V** (120/208/240V transformer included)
- **Zero ozone** (UL2998)
- **CARB certified** (available for sale in all states)
- **CE and ETL** (for US and Canada)

# Installation & Operation

- Ready to install right out of the box; no assembly required
- Fast & simple
  1. Install in supply duct
  2. Fix with 4 screws
  3. Connect power 120/208/240V (24V transformer included)
- Operates 24/7/365 (with air handler fan on)

# Packaging

**Clean Air is Life**  
LET US HELP PROTECT YOURS

# Collateral

**COMPONENTS** **Whole Home Air Purifier**

**Comfort-Aire® Whole Home In-Duct Air Purification System**  
**Reduces 99.9% Of Harmful Airborne Microbials**

Made in USA With Globally Sourced Components

The Comfort-Aire in-duct whole home air purifier reduces mold, VOCs, viruses, bacteria, tobacco smoke, and common household odors using photocatalytic oxidation (PCO). Two UV-C sources (gas lamp and LED) react with two proprietary substrates to create a large field of oxidizing agents within the duct. As contaminants in the air pass through the field, the oxidizing agents attack and break down the microbials resulting in cleaner, healthier, and fresher smelling air. This unit is certified zero ozone.

**Features:**

- For Use In Air Handlers Up To 2000 CFM
- All Hardware Included For Simple In-Duct Installation
- Digital Countdown Timer For Visual Indication Of UV-C Lamp Replacement
- Operates Continuously For Extended Lamp Life (3+ Years)
- Limited Warranty:
  - 7 Years Unit
  - 3 Years UV-C Gas Lamp

**Specifications:**

- eTULUS Listed - CE Certified
- Conforms To UL 1588:2021 Ed. 5
- Conforms To CSA C22.2#250.0:2021 Ed. 5
- Certified Zero Ozone
- Approved For Sale In California

**Power Consumption:**

MARS NO.	DESCRIPTION	VOLTAGE
00700	Whole Home Air Purifier	120, 208-240
00701	Replacement UV-C Lamp	--
00702	Replacement UV-C LED Cell	--

**Whole Home In-Duct Air Purification System**

Made in USA With Globally Sourced Components

## Clean Air is Life

LET US HELP PROTECT YOURS

*The Comfort-Aire® in-duct air purification system is the industry's first photocatalytic air purifier to use LED technology.*

**REDUCES**

- BACTERIA
- VIROSES\*
- MOLD
- PET ODORS
- TOBACCO
- FOOD SMELLS

\*Including MS2 (a widely accepted test surrogate for SARS-CoV-2, the virus that causes Covid-19)

**Comfort-Aire**

MARS Literature No. 98600M8

**Whole Home In-Duct Air Purification System** Model 00700

## Clean Purified Air To All Rooms

**Reduces 99.9% of Airborne Microbials\***

Think your furnace filter cleans your air? Typical furnace filters capture only dust and other large airborne particles. Unhealthy microbials can easily pass right through and continually circulate throughout your home.

Comfort-Aire's hybrid photocatalytic oxidation process uses a traditional UV-C lamp and an array of long-life UV-C LEDs to react with two separate catalysts. This dual action creates a powerful field of oxidative elements. As air passes through the field the pollutants are oxidized and reduced resulting in cleaner air.

**FEATURES**

- Silent Operation
- Energy Efficient (32W)
- Virtually Maintenance Free
- Nothing To Set or Adjust
- Long Life LED Technology
- Zero Ozone
- 7 Year Limited Warranty (3 Years On Lamp)

\*Including MS2 (a widely accepted test surrogate for SARS-CoV-2, the virus that causes Covid-19)

**State of California registered warning:**  
 Avoidance: The product contains UV light for ozone removal. Do not operate if the lamp is broken. The product could expose you to mercury, which is known to the State of California to cause cancer and birth defects or other reproductive harm.
